

**ALL THE BENEFITS OF REPLACING YOUR ROOF
FOR ONLY HALF THE COST WITH OUR SILICONE COATING**

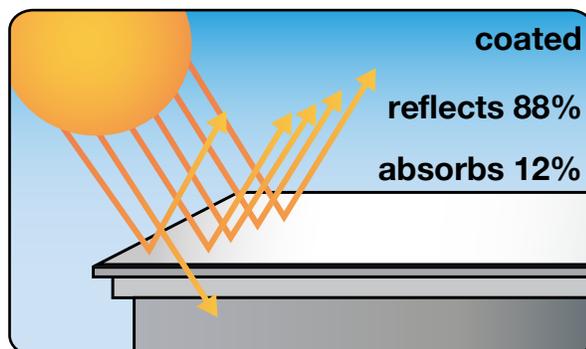

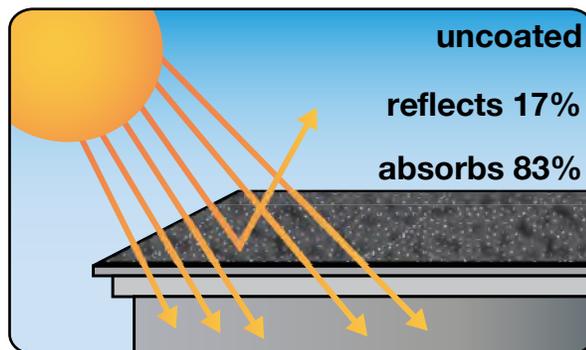

Put an End to Leaks and Protect Your Roof

Progressive Materials' Roof Coating Restoration (RCR) System offers a full line of silicone roofing products, accessories, and primers that improve roof performance and extend roof life.

Our high-solids, low VOC, single-component, 100% silicone roof coatings offer unparalleled waterproofing performance. Silicone is extremely flexible, cures rapidly (2-6 hours), and resists oxidation, severe weather, ozone, UV rays, and many chemicals that can damage your roof.

UNPARALLELED BENEFITS

- Easy installation: Clean, Prep, Coat
- 100% Silicone
- Durable in extreme weather conditions and withstands ponding water
- Leak-free guarantee - complete waterproofing
- Resists wash-off in rain - extends installation window
- Will not chalk, degrade, or haze from UV exposure
- Environmentally friendly

DESIGNED FOR FLAT OR LOW-SLOPED ROOFS

- Metal
- Aged asphalt
- Hypalon
- Spray foam
- Modified bitumen
- PVC
- Concrete
- Silicone coated roof
- Smooth surface BUR
- EPDM
- Granulated cap sheet
- Garages
- Gravel BUR
- TPO
- Torchdown
- RV's campers, mobile homes

EASY INSTALLATION

1. CLEAN:

Power wash the roof to remove any dirt and debris.

Any areas of grease contamination should be cleaned with industrial strength detergent. Be sure roof is completely clean before moving on.

2. PREP: Repair all seams, flashings, drains, and fasteners as

laid out in the roof specs found at pmsilicone.com.

3. COAT: Apply 100% Silicone Roof Coating with a sprayer or roller. As

you are applying the coating, check your coating thickness. Application rate can change based on application technique, surface texture, and wind speeds.

4. CLEAN-UP:

Clean all tools with mineral spirits. Do not use water.

Properly dispose of any unused silicone products in accordance with local, state, and federal regulations.

A FULL PRODUCT LINE

PRODUCT	NUMBER	COLORS	SIZES (GALLONS)
